Superstition Spacemodeling Society Launch Report

By Jared Copeland

The members of SSS assembled for their annual launch in remembrance of G. Harry Stine, founder of the NAR and of our club. The launch was well attended by both members and people new to the club. Overly windy conditions on Friday caused some concern, but these gave way to ideal conditions on Saturday morning and early afternoon, providing excellent conditions for launching all sorts of rockets.

At this launch on 03/06/26, the Superstition SpaceModeling Society had a total of 27 flyers and launched a total of 59 rockets on 68 flights consuming 69 motors. The success rate was 91%. These 68 flights burned up 20,636 Newton-seconds of impulse, which is equivalent to an O class motor.
